Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

20 & 21. Inspected 7 feedlots in shoreland or DWSMA areas. Inspected 8 feedlots with no prior record of any inspection. Also inspected and closed 5 feedlots as no livestock has been raised on-site for 5 years. There are 7 inspections that are listed on the discrepancy list that contribute to the overall number of inspections at sites that were registered for 50-299 AU. #19 & 30 - Complaint initiated inspection regarding a manure spill. MPCA requested the county to conduct the inspection and take photos of the manure spill. Manure was generated from a CAFO site. The manure spill was documented in the incident module and the enforcement activity. There is only the WAL in the complaint investigation inspection activity. #39 - Manure spill was reported to the county by the highway department. County conducted the inspection and took pictures of the manure spill. There was no inspection activity created. The manure spill was documented in the incident module and the enforcement activity. There are more details provided in the discrepancy list.
